

Alexandra Bircken, New Model Army, 2016

Our second skin I

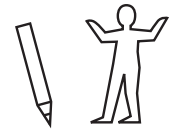

Think of a design concept for four figurines that is reflected in the different designs:

- ▷ Which protective skin will you use to cover the figurines: Should the skin make them stronger?
- ▷ Choose and combine materials from different areas of life, professions or fashion styles, which express your idea.
- ▷ Find a suitable title. Does it perhaps inspire contemplation about your choices of colors and materials, or does it call them into question?

☞ Skin is the body's largest organ, full of nerve endings. It is the surface that the outside world sees [...] We aim to protect our skin. Our state of happiness and health is marked or even written into our skin. (1)

🧩 Object, installation, fashion, drawing

Pens, 2-D figurine templates, possibly fabric, paper and similar remaining materials
