

## **"ALEX KATZ"** **PROGRAMME FOR VISITORS GREAT AND SMALL**

### **ACTIVITY BOOK FOR KIDS**

#### **Big Cinema with Alex Katz**

The booklet "Big Cinema with Alex Katz" is a playful guide to the exhibition for children offering new, exciting perspectives on art and providing an opportunity to continue painting, thinking and telling stories at home. It will be handed out free of charge at the art education station in the foyer and in the temporary art education room on the lower level of the museum.

We would like to thank LYRA for its generous support in providing the widest range of coloured pencils through which these booklets can be filled with life and creativity.

In addition, our immense gratitude is due to the Udo and Anette Brandhorst Foundation, which has made this project possible in the first place and has also addressed the needs of children and young people in the museum time and time again.

Alex Katz is famous for his large-format portraits and landscapes. He questions and scrutinises what he has actually seen in a series of preliminary studies. In the workshop, we will engage consciously with the question of our own perception when drawing. Nevertheless, making the perfect drawing is not the goal. Instead, the emergence of the drawing should be given a bit of a helping hand by looking here and there in the exhibition and actually directly at the works. A guide to active discovery – in a small format.

The basic scenes as well as the cinematography will be captured on smartphones and a short film will be produced by the group.
